## ABOUT ADC-SHANNON

ADC-Shannon brings together the expertise and resources of a leading construction company (Shannon Construction) and a woman- and minority-owned construction project management company (ADC Management Solutions) to provide exceptional construction services to clients. We are committed to delivering projects on time, within budget, and to the highest standards of quality and safety.

## SERVICES

- Project Management
- Estimation
- General Construction
- Construction Management
- Building Construction Maintenance
- Self-Perform
- Building Maintenance
- Design Build

## CORE COMPETENCIES

- **Project Management:** We are skilled in managing construction projects from initiation to completion, ensuring the project meets all requirements, and stays within budget and schedule.
- **Design-Build Services:** Our design-build services provide clients with a seamless and integrated approach to construction, including a single point of contact throughout the entire construction process.
- **Construction Management/General Contracting:** We have the expertise needed to manage every aspect of construction projects, including budgeting, scheduling, and quality control.
- **Specialized Construction:** We have capabilities for specialized construction projects, including sustainable construction, industrial construction, and more.
- **Skilled Team:** We are staffed by professionals with a wealth of experience in construction, including construction managers, project managers, estimators, superintendents, and engineers. We are also supported by a robust network of subcontractors, suppliers, and vendors.
